New Features

✅ [TNR-1922] - **Repository: Old versions may not be published**
Old and unpublished process versions can no longer be published through the repository.

✅ [TNR-1923] - **WriteLastTaskFinisherInVariableHandler: Translate parameters to english**
Parameter of the handler have been translated for international use.

✅ [TNR-3001] - **Virtual Folder**
With the new tab in the admin client, files can be stored in a virtual folder (per client). So a Word template can be uploaded and implemented via WordTemplateHandler.

✅ [TNR-2839] - **JBoss Cluster UC1 - YearIDGenerator on basis of database**
The yearID generator now generates the new value from the database and no longer on the JBoss Cache. Thereby, the cluster of a plural of servers is possible.

✅ [TNR-2843] - **JBoss Cluster UC3 - Filing of project artifacts- Design components (*.js, Icons, css, …)**
In Virtual Folder custom files can be stored and also included via Theme.

✅ [TNR-2970] - **JBoss Cluster UC4.1 - Filing of the product artifact tim.properties**
tim.properties can now be stored in the Virtual Folder.

✅ [TNR-2940] - **Multilingual placeholder in taskmails**
System variables are translated into the language of the recipient before they are inserted into Task mails.

✅ [TNR-2951] - **Bulk operations for instances**
Multiple instances can be selected in the process manager client and the following options are available: archiving, download reports (zip), document image (zip), download reports and documents (zip)

✅ [TNR-2974] - **Simple ToDo Client**
The new simple ToDo client is a streamlined form of the vertical ToDo client. Many optional tabs and pop-ups are not displayed, so it is suitable for users who rarely log in.
