

## Upload documents

It is possible to attach documents to a process instance; for example, to display process-relevant information. These documents can be uploaded and then downloaded and viewed by those who are involved in the process. All types of documents can be uploaded, e.g. PDF, Word-documents, pictures, text files.

The documents can be deleted as well.

The window where the documents are managed can be reached via the context menu and the appropriate menu item.

| Name   | Comment                   | Creation Time       | Creation User | Content type             | Storage |
|--|---------------------------|---------------------|---------------|--------------------------|---------|
| tim_report_22_01_2016_08-27_effortreport.xls | Efforts report            | 01/22/2016, 8:32 AM | p m           | application/vnd.ms-excel | TIM-DB  |
| tim_report_22_01_2016_08-27_effortreport.xls | Efforts report last month | 01/22/2016, 8:32 AM | p m           | application/vnd.ms-excel | TIM-DB  |

| Element | Description  |
|---------|--|
| 1       | The entire name of the uploaded document is shown here.  |
| 2       | During the upload of the document (see <a href="#">upload</a> ), a note may be made about this document. It appears in this column.      |
| 3       | The time when the document was uploaded is displayed here.   |
| 4       | The user who uploaded the document is displayed in this column.  |
| 5       | This button opens a window where a file can be uploaded. (see <a href="#">upload</a> .)  |
| 6       | The Content-Type/MIME-Type of the document is displayed in this column. It shows what kind of file is present.                           |
| 7       | This column displays the location where the document is saved. It can be either on the TIM database or a different one with its own DMS. |

### Context menu

Different actions can be performed via the context menu of a document:

| Menu item              | Description  |
|------------------------|--|
| <b>Open document</b>   | With this item the document can be downloaded or opened directly.  |
| <b>Delete document</b> | With this menu item the document can be deleted from the instance. |

### Upload

### Upload document ✕

File 

File

Description

DMS

In this window it is possible to attach new documents to the process instance.

| Array              | Description  |
|--------------------|--|
| <b>File</b>        | Here a file can be selected from one's own computer by using the file selection dialog.  |
| <b>Description</b> | This field may contain any description that has been assigned to the document.   |
| <b>DMS</b>         | = <b>D</b> ocument <b>m</b> anagement- <b>S</b> ystem. Here, either the TIM system and its database or a different external DMS can be selected. |
| <b>Schema</b>      | Only necessary when an external DMS is used. In this case, the schema in which the document should be saved is chosen.                           |
