

Effort report

In T!M, effort reports can be displayed and downloaded as XLS-Document. This can be done via the context menu which opens by right-clicking the particular instance.

Efforts can be stored for a task. These efforts can either have the unit cost or time.

The screenshot shows a 'Task' details page with tabs for 'Properties', 'Documents', 'Note', 'Links', 'Efforts', 'Graph', and 'Smartform'. The 'Efforts' tab is active. A modal dialog titled 'Effort' is open, containing fields for 'Effort Type *' (set to 'Costs'), 'Effort in Euro *' (set to '1000'), 'Cost Center *' (set to '2'), and a 'Description' text area ('Any Description'). A red box highlights the 'Register Effort' button in the top right of the dialog.

Array	Description
Type	Selection whether it is a time or a cost effort.
