(remove this paragraph once the translation is finished) Login Mask

Generally, the mask for the login/registration consists of the following components/fields:

- **Login:** Here, you have three options to specify your registration data: see [Types of registration](#)
- **Password:** Here, the assigned password has to be entered
- **Client:** Here, you can choose between the different clients you want to log in to. A successful registration with each of the clients depends on the rights which have been assigned to a particular user.

The screenshot shows a login form titled "Anmeldung" (Login) for the TIM system. The TIM logo, "TIM task in motion", is in the top right. The form has three input fields: "Login:" with the text "tim4you/john.doe", "Password:" with masked characters, and "Client:" with a dropdown menu showing "ToDo - Client". A "Login" button is at the bottom right. Below the form, the text "TIM - Task In Motion v4.0" is visible.

Via a click on the client dropdown you get to the different options:

- [ToDo-Client](#)
- [ToDo-Client 1G](#)
- [Processmanager-Client 4G](#)
- [Processmanager-Client](#)
- [Administration](#)

To get to the [TIM Dashboard](#) for analyses the URL <http://COMPANY-SERVER/dashboard/> has to be entered into the navigation bar of your browser.

Anmeldung
