

## Login Screen

Generally, the mask for the login/registration consists of the following components/fields:

- **Login:** Here, there are three options to specify your registration data: see [Types of registration](#)
- **Password:** Here, the assigned password has to be entered
- **Client:** Here, the user can choose between the different clients which are available for log-in. A successful registration with each of the clients depends on the rights that have been assigned to a particular user.

The screenshot shows a login interface for 'TIM'. At the top left, it says 'Login TIM'. At the top right is the 'TIM' logo with a green checkmark icon. Below the logo, there are three input fields: 'Login:' with the text 'sers/there', 'Password:' with masked characters '.....', and 'Client:' with a dropdown menu showing 'ToDo Client'. A 'Login' button is located at the bottom right of the form. Below the form, the text 'TIM Solutions GmbH TIM v5.1' is visible.

By clicking on the client drop-down menu, the available options appear:

- [ToDo-Client](#)
- [ToDo-Client 1G](#)
- [Processmanager-Client 4G](#)
- [Processmanager-Client](#)
- [Administration](#)

To get to the [TIM Dashboard](#) for analyses, the URL <http://COMPANY-SERVER/dashboard/> has to be entered into the navigation bar of your browser.
