

Modules

Bausteine sind Funktionalitäten, welche prozessübergreifend in verschiedensten Workflows verwendet werden können. Hier findet sich eine Liste der derzeit verfügbaren Bausteine: Modules are functionalities that can be used cross-process in many different workflows. Here is a list of the currently available modules:

Description	Link
decision per e-mail and client	decision per e-mail and manually
minority decision in case of rejection (serial request)	serial decision
subprocess ends main process (Signavio4TIM)	subprocess ends main process (Signavio)
subprocess ends main process (iGrafx)	subprocess ends main process (iGrafx)
ending a process in a paralell sequence	end-complete-process_true
template for new modules	template
