performPastReminders

Description

This timer runs all reminders from up to a limit. This timer is looking for open reminders, for example, generated by the [GenerateOffsetEscalationTimeHandler](#) and executes them. That means this timer ensures that the dispatching of reminder emails which are already accrued by escalations.

Webservice Name

EscalationManager

Webservice Methode

performPastReminders

Parameter

limit

Number of reminders to be started at a run, for example, "5".

IMPORTANT! If this number too high, the timer stops with an error and tries again. This ends up in an endless loop.
