

# User settings for Group Affiliation

## Add member

Adding a user is done by rightclicking on the respective group. Subsequently an existing user must be assigned to the blank membership.

## Edit Membership

To edit a membership rightclick on the respective member.

## Setting a name

To set a name for a membership might be helpful, in order to use the extended assignment of a group. It will not assign the whole group, but just one member of it. Details can be seen [here](#)
