

Context Menu User

This context menu is opened by right-clicking on a user from the user list of the administration client.

Field	Description
User Profile	This takes a user to the user profile.
Remove User	This removes a user from the system. If the user is required again at a later point, this has to be configured anew.
Add Context-Role	This adds a new context role for the user. See Edit Context Roles
Context-roles	This opens the context-roles overview directly. See Context Roles
